July 2022 - Nov
2022

- **Intern as software developer**
Cravita Technologies India Pvt Ltd
Used advanced software programs and helped to maintain strong communication among colleagues.
Utilized crucial design software skills to assist with projects.

June 2022 - July
2022

- **Data science Intern**
The spark foundation
Worked under the guidance of the senior developer on the Project for Analyzing with Exploratory Data Analysis (EDA).

EDUCATION

2023

- **Ajeenkya Dy Patil University**
Bachelor of Technology Data science
7.5 CGPA

2019

- **Residential Junior college Ahmednagar**
HSC
61.20%

2017

- **Goreshwar Madhyamik Vidyalaya Goregaon**
SSC
97.30%

SKILLS

- C programming
- Python
- C#
- Javascript
- SQL
- HTML, CSS, Bootstrap
- ASP.NET

PROJECTS

- **Multiple disease prediction system using Machine learning**
The Software Multiple Disease Prediction System can be used to predict diseases Like Diabetes, Heart Disease, Parkinson's Disease by using some medical tests reports.
This project is developed in Python, machine learning algorithms like Logistic regression and Support vector Machine.

- **Hand gestures controlled PowerPoint presentation using opencv**

In this project, we created a Hand Gesture based Presentation system using Opencv in Python.

We were able to move the slides back and forth along with a pointer and drawing capabilities. To make it more usable we added an erasing gesture as well.

- **Grocery management system**

The Software Grocery Store Management System can be used for the computerized preparation of online shopping and billing.

The project also contains programs to display product detail, customers adding,delete products in carts, update carts, etc.

This project is developed in JavaScript and the database used here is PHP MyAdmin

CERTIFICATION

- Full stack python development
- Full stack.net development
